PROFILE

Enthusiastic and dedicated Software Engineering student with a strong passion for frontend development. Specialized in creating responsive and engaging web applications using React and Next.js + Tailwind. Eager to leverage my technical skills, creativity, and problem-solving abilities to build intuitive, user-friendly interfaces that enhance the user experience.

EDUCATION

Bachelor of Software Engineering

Institution: University Jorge Tadeo Lozano
Year of Graduation: 2024

Achievements:

- Discrete Mathematics Monitor (2022)
- Attendance to ICPC National Hackathon due to academic performance.

PROJECTS (AVAILABLE ON GITHUB)

MeetdApp (NextJS, ChakraUI & Rainbowkit)

This is a decentralized version of meetup where an NFT is minted after attending an event.

- I was the leader of the front-end team.
- The product was developed alongside the ETH Bogota Community.

NONAME E-commerce (NextJS, DaisyUI & Clerk) [In progress]

This is an academic exercise to learn about authentication, online payments, among other things. I'm the one in charge of the frontend.
